Splendid All Around

I wish to commend you on your splendid editorials on the national level. Especially good are those on our sorry and hypocritical foreign policy; our loss of respect of both friends and enemies; the fact that our President has apparently taken no cognizance of either the seeming presence of stupidity almost to the point of treason, or the infiltration of subversives in the C.I.A. and State Department.

This is not the ranting of the "radical right" but a problem that informed and thinking citizens must eventually consider.

Also, I thought the cartoons were timely. Especially the one of the patriotic watchdog getting the broom from the administration for his warning bark while the burglar, Communism, hid in security around the corner. "Patriot" today is a dirty word — pronounced with a sneer by some of our highest officials.

ASKS IF JOHNSON
READS THE HEADLINESEditor,
Shreveport Journal.

Is President Johnson so busy turning off White House lights that he has no time to read the headlines? — Americans manhandled in Zanzibar; U.S. missionaries slain in the Congo; American soldiers killed in Panama; three American air officers shot down over East Germany; American women and children bombed in a Vietnam doomed since the betrayal-murder of patriot Diem, etc., etc. — But President Johnson says everything's ducky.

And what is that colossus, the CIA doing? — Spying on the John Birch Society?

The Stars and Stripes lie trampled under the filthy boots of our "underdeveloped," foreign-aided, red-loving 'friends'! — America's honor and her very life are at stake.

Could President Johnson interrupt his waltzing long enough to do something about it?
